

ASU BIOS OPEN HOUSE: SCHEDULE OF EVENTS

Station 1: Coral Mesocosm Tour

All Day	Check out where ASU BIOS scientists perform long-term experiments to observe how corals respond and adapt to environmental conditions. Speak to coral scientists about their research and see our coral tanks firsthand.
---------	--

Station 5: Sunderman Room — Drop in the Ocean

All Day	“Drop in the Ocean” is an immersive VR experience where you will see the ocean from the perspective of a tiny plankton. You’ll explore the ocean, meet some sea creatures, and see why the need to protect it is so urgent.
---------	---

Station 9: Clark Lab — Coral Identification

All Day	Identify local coral species with scientific researchers and see coral polyps up close! The scientists can answer your questions about the different species and their research around Bermuda.
---------	---

Station 2: MAGIC Room — Meet A Scientist

10:30-11am	Rachel Parsons: “The Microbial Secrets of Devil’s Hole”
11:30-12pm	Dr. Eric Hochberg: “Coral Reef Color”
12:30-1pm	Dr. Yvonne Sawall: “Marine Heat Waves, Coral Thermal Tolerance, and Coral Bleaching”
1:30-2pm	Dr. Mark Guishard “Hurricanes and Climate Change in Bermuda”
2:30-3pm	Dr. Andrew Peters “Air-Sea Research at the BIOS Tudor Hill Observatory”
3:30-4pm	Dr. Sam de Putron “Coral Life Cycles and Baby Corals”

Station 6: Outside of Naess Lab — BATS Lab Tour

10:30-11am	Tour of BATS Lab
11:30-12:00	Tour of BATS Lab
12:30-1:00	Tour of BATS Lab
1:30-2:00	Tour of BATS Lab
2:30-3:00	Tour of BATS Lab
3:30-4:00	Tour of BATS Lab

Station 10: Tours of the R/V Atlantic Explorer

10:00-10:30	Tour of Research Vessel Operations
10:30-11am	Tour of Research Vessel Operations
11:00-11:30	Tour of Research Vessel Operations
11:30-12pm	Tour of Research Vessel Operations
12:00-12:30	Tour of Research Vessel Operations
12:30-1pm	Tour of Research Vessel Operations
1:00-1:30	Tour of Research Vessel Operations
1:30-2pm	Tour of Research Vessel Operations
2:00-2:30	Tour of Research Vessel Operations
2:30-3pm	Tour of Research Vessel Operations
3:00-3:30	Last tour of R/V Atlantic Explorer

Station 3: Riker Room — EXPLORE VR

All Day	“EXPLORE” is an educational, interactive VR dive on the coral reefs of Palau where you will undergo training to become a marine biologist. You will tag manta rays, monitor ocean health from space, and measure coral reef biodiversity.
---------	---

Station 7: Scott Lab— Plankton Identification

All Day	ASU BIOS Scientists will help identify plankton in the laboratory and use our microscopes. Ask them about their research around Bermuda from 1,000 meters below sea level and see some incredible plankton specimens!
---------	---

Station 4: R/V Rumline Plankton Tow

10:15-10:45	Collect plankton from Ferry Reach with the ASU BIOS Small Boats team
11:15-11:45	Collect plankton from Ferry Reach with the ASU BIOS Small Boats team
12:15-12:45	Collect plankton from Ferry Reach with the ASU BIOS Small Boats team
1:15-1:45	Collect plankton from Ferry Reach with the ASU BIOS Small Boats team
2:15-2:45	Collect plankton from Ferry Reach with the ASU BIOS Small Boats team
3:15-3:45	Collect plankton from Ferry Reach with the ASU BIOS Small Boats team

Station 8: Hanson Hall — Gallery Walk

All Day	<ol style="list-style-type: none"> 1. Ocean Academy Educational Information 2. Bermuda Program Student Talks 3. Arizona State University Information 4. MAGIC Glider Program 5. Deep Sea Videos 6. Ocean Engineering and Technology 7. Partners in Ocean Futures of Bermuda
---------	--

Station 11: Front Reception — ASU BIOS History

All Day	We have been conducting ocean research since 1903 and have a lot to show for it! Learn about our long history and see some of our equipment from over the years up close.
---------	---

Scan here for the ASU BIOS campus map and today’s schedule of events

ASU BIOS OPEN HOUSE: MAP OF STATIONS

- 1. Coral Mesocosm Tour
- 2. Meet a Scientist: MAGIC Room
- 3. EXPLORE VR: Riker Room
- 4. Plankton Tows at the Dock
- 5. Drop in the Ocean VR

- 6. BATS Lab Tour: Naess Lab
- 7. Plankton Identification: Scott Lab
- 8. Gallery Walk: Hanson Hall
- 9. Coral Identification: Clark Lab
- 10. Tours of the R/V Atlantic Explorer

- 11. ASU BIOS History: Reception
- 12. Parking
- 13. Food Trucks
- 14. Emergency/ First Aid
- 15. Picnic Tables
